MEMORANDUM FOR THE RECORD

FROM: [redacted]
Chairman, ELINT Exploitation Working Group

SUBJECT: Fourteenth Meeting of the ELINT Exploitation Working Group [redacted]

1. On 27 January 1982, the Working Group met to prepare for the conference in Hawaii on 3-5 February 1982. Since neither the materials shipped by the ICS Registry nor the same materials shipped from [redacted] [redacted] had yet arrived at IPAC, it was agreed that it might be necessary to again hand-carry the conference materials. [redacted]

2. After a discussion of the importance of the [redacted] to the ELINT Exploitation Study, it was agreed that the Working Group would invite the [redacted] personnel to come to Washington for a day of briefings and discussions derived from those presented at the [redacted] conference. If they cannot attend, then the conference materials will be provided to them along with the questions about exploitation planning in order to assess whether they can answer the questions without the benefit of briefings. If [redacted] accepts, [redacted] will be invited to come as well since they were represented by proxy at [redacted]

3. Exploitation at collection sites will be addressed in the study by first reviewing the planning that has already been completed for these centers. This planning should be well advanced since, unlike other exploitation centers, these centers are aware of the planned changes in ELINT collection and have already been tasked to prepare for them. [redacted]

4. The agenda for the fifteenth meeting is attached. Also attached are the Near-Term Actions. [redacted]
